SUBJECT INDEX TO VOLUME 41

(abs) = abstract (E) = editorial

Actinomycosis of lungs, prognosis of roentgen treatment (abs), 486
Adenocarcinoma of uterine fundus, 789
Adenoiditis, roentgen therapy of (abs), 488
Adenoma, parathyroid, diffuse calcific deposit outlining kidney lobules associated with, 601
Adrenal gland, deposits of calcium salts in, 931
Air, clinical experience with 95 per cent oxygen for absorption of, from body tissues (abs), 673
ionization in, and in gas mixtures approximating composition of tissues, 992
American College of Radiology, 1051
American Congress on Obstetrics and Gynecology, 291
American Radium Society, 465, 1051
American Roentgen Ray Society (E), 454
golf tournament, 1051
instruction courses at Fortieth Annual Meeting, 1033
Anatomical variations of female pelvis, and classification according to morphology, 505
Anemia, Congo red therapy in, 834
pernicious, cholecystographic findings in (abs), 302
Anencephaly, 347
Aneurysm of innominate artery (abs), 679
ventricular, roentgen and post-mortem survey, 32
Aneurysms, intracranial, 881
Angiography, cerebral, by direct injection of common carotid artery, 166
Angioma of tympanic cavity, roentgen diagnosis and treatment, 25
Annular shadows in tuberculous lung treated with pneumothorax, 581
Anomalies, developmental skull, 347
of skull and brain, 881
Anomaly of clavicles, 376
Aorta, calcific stenosis of (abs), 679
Apophyseal intervertebral articulations, roentgenologically considered (abs), 481
Apparatus for roentgen photography, 662
Appendicitis, roentgenological and histopathological study, 188
Appendix, normal, roentgen aspect, 188
Arteries of leg, calcification in, 784
Arteriography, pulmonary (abs), 676
Artery, common carotid, cerebral angiography by direct injection of, 166
innominate, aneurysm of (abs), 679
pulmonary, roentgen diagnosis of lesions of (abs), 870
Arthritis of hip, radiotherapy of second lumbar sympathetic ganglion in (abs), 488
Arthropathy, psoriatic (abs), 476
Articulations, apophyseal intervertebral, roentgenologically considered (abs), 481
Asthma, bronchial, subcutaneous emphysema and pneumothorax in (abs), 674
Atony, acute transient intestinal, 575

Bacillus welchii, practical and experimental aspects of roentgen treatment of infection caused by (abs), 489
Béclère, Antoine, 1856–1939, obituary (E), 1022
portrait, 1022
Belot, J., presentation of medal to, 293
Benzedrine sulphate, effect of, on bowel and uterus (abs), 490
Benzol, effect of, on blood and blood-forming organs (abs), 490
Biological effect of continuous and rhythmically interrupted roentgen irradiation on eggs of *Drosophila melanogaster* (abs), 490
measurement of radiations, 441
Bladder, tumors, roentgen rays in diagnosis and treatment of, 962
Blood, effect of radium and benzol on (abs), 490
effect of roentgen rays on toxicity of, 709
-forming organs, effect of radium and benzol on (abs), 490
serial findings in, of eight-month premature and its roentgen treated chronic, myeloid leukemic mother (abs), 304
vessels, anomalies and tumors of, of brain and skull, 881
vessels, great, complete transposition of (abs), 1059
vessels, great, in man, visualization of, 1
Bone, benign tumors of, immediate and end-results of radiation therapy (abs), 487
changes in steatorrhea, 762
formation, nodular, in chronic passive congestion of lungs (abs), 678
human, composition of, in chronic fluoride poisoning (abs), 298
lesions from parathyroidism, effect of irradiation of neck on repair of, 970
marrow, findings in, of eight-month premature and its roentgen treated chronic, myeloid leukemic mother (abs), 304
marrow, histological studies of, in dogs, following intravenous injection of thorium dioxide, 950
metastasis to, from carcinoma of gastrointestinal tract (abs), 1062
rare growth disturbances of (abs), 476
secondary carcinoma of (abs), 142
Bones, Gaucher's disease in (abs), 1059
multiple cyst-like tuberculosis of (abs), 144

striae in, of set of monozygotic triplets (abs), 475
BOOK REVIEWS
Meningiomas: Their Classification, Regional Behaviour, Life History, and Surgical End Results. By Harvey Cushing, 294
Third Symposium on Silicosis, 294
Introduction to Ophthalmology. By Peter C. Kronfeld, 296
Textbook of Diagnostic Roentgenology. By Lewis J. Friedman, 466
Stratigrafia: Metodo röntgenologico per la esplorazione analitica dei singoli strati sovrapposti. By Allesandro Vallebona, 466
Le traitement radiologique de l'actinomycose. By Axel Renander, 467
Standards for the Diagnosis and Treatment of Cancer. By the Executive Cancer Committee of the Iowa State Medical Society, 467
Ergebnisse der biophysikalischen Forschung in Einzeldarstellungen. By H. Dänzer, H. E. Hollmann, B. Rajewsky, H. Schaefer and E. Schliephake, 467
Synopsis of Digestive Diseases. By John L. Kantor, 659
L'exploration radiologique post-opératoire de la voie biliaire principale. By B. Desplas, P. Moulonguet and P. Malgras, 659
I quadri radiologici delle invaginazioni del tubo digerente. By Bruno Bonomini, 659
The Rheumatic Diseases. Edited by Sir Leonard Hill, 659
Laboratory and Clinical Studies, Vol. XVIII. From the Memorial Hospital, 660
Curieterapia in dermatologia. By Vincenzo Palumbo, 661
Il radium nella cura dei tumori maligni delle prime vie aero-digestive. By C. Torrigiani and V. Palumbo, 661
The Radiology of Pulmonary Tuberculosis. By J. E. Bannen, 863
Tuberculosis among Children and Young Adults. By J. Arthur Myers, 863
The Pituitary Gland: An Investigation of the Most Recent Advances, 863
L'exploration radiologique des tumeurs de l'hypopharynx et du larynx. By Pierre C. Huet and Maurice Peri, 864
Affections non ulcéreuses du duodénum. By I. Pavel, 864
BOWEL, effect of benzedrine sulphate on (abs), 490
small, new roentgen technique for study of (abs), 683
BRAIN, effect of radiation applied directly to, experimental investigations on *Macacus rhesus* (abs), 680
stem, technique for demonstration of tumors involving, 18
vascular tumors and anomalies of, 881
BREAST, carcinoma, study of lung changes following radiation treatment, 605
carcinoma, surgical and radiation treatment of various phases of, 979
BRONCHIECTASIS, coexistence of, and sinusitis (abs), 674
in roentgenogram, relation to collapsed lung and triangular basal shadow, 173
BRONCHUS, carcinoma, roentgenologic-pathological study, 493
primary sarcoma of, 909

CALCIFIC aortic stenosis (abs), 679
deposit, diffuse, outlining kidney lobules associated with parathyroid adenoma, 601
CALCIFICATION in arteries of leg, 784
CALCIFICATIONS in splenic region, 931
CALCINOSIS, interstitial, 749
CALVÉ'S vertebra plana (abs), 301
CANCER, cervical, gross morphology of, in relation to its curability, 51
erosive slow-growing gastric (abs), 1058
gastric, analysis of end-results following experimental radiation therapy of, 391
gastric, complications of radiation therapy of, 391
of cardia, roentgen diagnosis, 873
of cervix, borderline, results of iliac lymphadenectomy with irradiation, 242
of cervix, radiotherapy of (abs), 487
of cervix, treatment by radiation therapy, 55
of esophagus, etiological considerations, 420
of vertebrae (abs), 479
primary inoperable, of ovaries, results of roentgen therapy in 51 cases of, 425
relation of lymphatic vessels to spread of (E), 649
rôle of reticulo-endothelial system in, 834
skin, low voltage roentgen therapy in, 437
CANTHI, epithelioma of, 616
CARCINOMA, bronchial, roentgenologic-pathological study, 493
cervical, significance of urological surveys in, 63
No. 256, rat, effect of high fever temperatures on, 685
of breast, study of lung changes following radiation treatment, 605
of breast, surgical and radiation treatment of various phases of, 979
of cervix, aids to irradiation in management of, 73
of cervix, management of major complications during radium therapy of, 69
of corpus uteri, radiation therapy alone in, 798
of esophagus, early, 603
of gastrointestinal tract, metastasis to bone from (abs), 1062
of pancreas, gastrocolic fistula from, 373
secondary, of bone (abs), 142
CARDIA, cancer, roentgen diagnosis, 873

Carotid artery, common, cerebral angiography by direct injection of, 166
Cartilage, rare growth disturbances of (abs), 476
Cavity therapy, tube for, 444
Cell, inheritance structure of, and its relation to irradiation effects, 91
Cells, malignant, direct and indirect actions of radiations on (abs), 681
normal and tumor, microcinematographic studies of effect of roentgen rays on, in tissue cultures (abs), 491
Cephalometry, roentgen, 305
Cerebral angiography by direct injection of common carotid artery, 166
Cervical rib in early life (abs), 478
Chest, roentgenography of, by photography of fluoroscopic screen (abs), 682
Childhood, osteochondritis ischiopubica in (abs), 1062
transcondylar fractures of humerus in (abs), 1060
Children, roentgen treatment of enlarged inflammatory tracheobronchial lymph nodes in (abs), 303
Cholecystography, findings in pernicious anemia by (abs), 302
Chondrodysplasia, ulnar-volar bayonet hand as typical malformation in (abs), 477
Cinefluorography for study of abnormal diaphragmatic and mediastinal movements, 926
Circulation, pulmonary, visualization of, in man, 1
Clavicles, anomaly of, 376
Collapse therapy, application of pulmonary physiopathology to (abs), 136
Colon, congenitally small, roentgen aspects, 564
influence of filling stomach on motility of, in dog (abs), 489
intussuscepted tumors of, roentgen appearance with and without barium examination, 549
roentgen findings in, in steatorrhea, 758
Congo red therapy in roentgen sickness and anemia, 834
Contusions of kidney, roentgen diagnosis (abs), 138
Corrosive substances, roentgen observations of esophageal erosion after recent ingestion of (abs), 672
Craniostenosis, 347
Cretin pelvis, roentgen diagnosis (abs), 141
Crystal analysis, Metalix tube for, 444
Cushing, Harvey, and roentgenology (E), 1020
Cystic disease of lung (abs), 678

Defecation, influence of filling stomach on, in dog (abs), 489
Densitometer for measurement of roentgenographic shadows, 642
Diaphragm, paradoxical movement of, and mediastinal shift, 926
Dielectric strength of insulating fluids, studies on, 114
Digestion, rôle of autonomous movements of gastrointestinal mucous membrane in, 145
Diodrast, as opaque medium used in uterosalpingography, 527
visualization of chambers of heart, pulmonary circulation and great blood vessels in man by use of, 1
Diverticulum, pericardial, roentgen diagnosis of (abs), 678
Dogs, histological studies of liver, spleen and bone marrow in, following intravenous injection of thorium dioxide, 950
influence of filling stomach on colon motility and defecation in (abs), 489
Dosage measurement, "constitutional," in radium therapy, 432
of radium packs, measurement of (abs), 681
radium, related problems of, 110
Downs, Elwood E., 1890–1939, obituary (E), 1027
portrait, 1027
Drosophila melanogaster, biological action of continuous and rhythmically interrupted roentgen irradiation on eggs of (abs), 490
eggs used in determination of inheritance structure of cell and its relation to irradiation effects, 91
Duodenum, mucosa of, simple compression method for study of, 667
primary lymphosarcoma of, 545
Dyschondroplasia (abs), 141

Eastern Radiologists, conference of, 658
Echinococcus alveolaris, roentgen diagnosis of (abs), 320
cysts, involvement of spleen by, 931
cysts, roentgen therapy of (abs), 486
Edema, lung, roentgen aspect of, 183
Editorials
Subdural hematoma, 122
Radiation therapy: Should we continue the use of the term "*super*voltage"? 284
The American Roentgen Ray Society, 454
Leopold Jaches, 1874–1939, 455
The relation of the lymphatic vessels to the spread of cancer, 649
Clyde Columbus Phillips, 1891–1939, 652
Spontaneous mediastinal emphysema, 856
Harvey Cushing and roentgenology, 1020
Antoine Béclère, 1856–1939, 1022
Elwood E. Downs, 1890–1939, 1027
Henry Schmitz, 1871–1939, 1029
Effects, biological, of hard and soft gamma rays, comparison of, 432
of roentgen radiation and prolan upon testes of immature rats, 448
of roentgen rays on toxicity of blood, 709
of roentgen rays on wound healing, statistical study, 625
Effusions of pleura, 915
Embolism, pulmonary, roentgen manifestations, 901

EMPHYSEMA, spontaneous mediastinal (E), 856
subcutaneous, and pneumothorax in bronchial asthma (abs), 674
EMPYEMA of pleura, 915
ENCEPHALOGRAPHY, unusual changes found by, in congenital neurosyphilis, 779
ENDOCRINOLOGICAL affections of skeleton (abs), 143
ENGLAND, economic status of radiology under socialized medicine in, 657
EPITHELIOMA, Brown-Pearce rabbit, effect of high fever temperatures on, 685
Brown-Pearce rabbit, *in vitro*, lethal single massive roentgen-ray dose for, 954
of eyelids and canthi, 616
EROSION, roentgen observations in recent esophageal (abs), 672
ESOPHAGUS, cancer, etiological considerations, 420
early carcinoma of, 603
polypoid tumor of (abs), 673
roentgen observations in recent erosion of (abs), 672
EXTREMITIES, upper and lower, inheritable and congenital multiple synostoses in multiple joints of (abs), 1059
EYELIDS, epithelioma of, 616

FETUS, eight-month, serial blood and bone marrow findings in, and its roentgen treated chronic myeloid leukemic mother (abs), 304
unborn, roentgen detection of myelocele of (abs), 302
FILTERS, secondary, in radium therapy, 804
FISTULA, gastrocolic, from carcinoma of pancreas, 373
FLORIDA RADIOLOGICAL SOCIETY, 1051
FLUORIDE POISONING, chronic, composition of human bone in (abs), 298
FOREIGN BODIES, multiple, simple method of localization and removal of, 469
FRACTURES, transcondylar, of humerus in childhood (abs), 1060

GALLBLADDER, roentgen findings in, in steatorrhea, 758
GAMMA RAYS, hard and soft, comparison of biological effects of, 432
GANGLION, radiotherapy of second lumbar sympathetic, in arthritis of hip (abs), 488
stellate, infiltration of, under roentgenoscopic control (abs), 672
GAS gangrene, practical and experimental aspects of roentgen treatment of (abs), 489
mixtures, ionization in, and in air, approximating composition of tissues, 992
-forming infections, practical and experimental aspects of roentgen treatment of (abs), 489
GASTRITIS, antral, and spasm (abs), 136
chronic, roentgenologic and gastroscopic studies in, 354
GASTROCOLIC FISTULA from carcinoma of pancreas, 373
GASTROINTESTINAL TRACT, manifestations of lymphogranulomatosis in (abs), 1057
metastasis to bone from carcinoma of (abs), 1062
rôle of autonomous movements of mucous membrane of, in digestion, 145
syphilis of (abs), 1058
GASTROSCOPIC studies in chronic gastritis and peptic ulcer, 354
GAUCHER'S DISEASE, chronic (abs), 475
osseous form of (abs), 1059
GEORGIA RADIOLOGICAL SOCIETY, 465
GERMANY, economic status of radiology under socialized medicine, 460
GRANULOMATOSIS, MALIGNANT: See Hodgkin's disease
GRENZ RAYS, method of demarcating and making permanent record of skin fields in using (abs), 485
GROWTH disturbances, rare, of bone and cartilage (abs), 476
GUMMA, syphilitic, of lung (abs), 675
GYNECOLOGIC lesions, effect of, on upper urinary tract (abs), 139

HAND, ulnar-volar bayonet, as typical malformation in chondrodysplasia (abs), 477
HEADREST, adaptable, for roentgenography of sinuses, mastoids and skull, 131
HEART in pneumoconiosis (abs), 871
silhouette, study of transverse diameter of, with prediction table based on teleroentgenogram (abs), 871
size and shape of, in hyperthyroidism (abs), 872
ventricular aneurysm, roentgen and postmortem survey, 32
visualization of chambers of, in man, 1
HEMANGIOMAS of skull and brain, 881
HEMATOMA, calcified, of spleen, 931
subdural (E), 122
HEMOSIDEROSIS, pulmonary, 592
HEREDITARY changes in descendants of female mice exposed to roentgen rays, 248
HIP, arthritis, radiotherapy of second lumbar sympathetic ganglion in (abs), 488
HIPPURAN as opaque substance used in uterosalpingography, 527
HIPS of cretins, roentgen findings in (abs), 141
HODGKIN'S DISEASE, anatomic and clinical features, 198
gastrointestinal manifestations of (abs), 1057
mediastinal glandular tuberculosis in adult resembling, 742
radiotherapy in, 198
HUMERUS, transcondylar fractures of, in childhood (abs), 1060
HYPERTHYREOSES, roentgen treatment of (abs), 485

Hyperthyroidism, association of, with pulmonary tuberculosis (abs), 676
size and shape of heart in (abs), 872

Ilium, unilateral congenital elevation of, or congenital dislocation of sacroiliac joint (abs), 1061
Illinois State Medical Society, 658
Infants, roentgen treatment of enlarged inflammatory tracheobronchial lymph nodes in (abs), 303
Infarctions of lung, roentgen manifestations, 901
of spleen, calcium depositions in, 931
Inflammation of tonsil and nasopharynx, indications, technique and results in radiotherapy of (abs), 303
Inflammations, fundamental principles in roentgen therapy of (abs), 488
Inheritance structure of cell and its relation to irradiation effects, 91
Injuries, late, from roentgen rays (abs), 482
produced by roentgen rays and radioactive substances, treatment of, 80
Insulating fluids, studies on dielectric strength of, 114
Inter-Society Committee for Radiology, Bulletin of, 126, 288, 460, 657, 860, 1048
Interstitial calcinosis, 749
Intervertebral articulations, apophyseal, roentgenologically considered (abs), 481
discs, additional information on question of displacement of (abs), 480
discs, pain low in back and "sciatica" due to lesions of (abs), 299
Intestine, acute transient atony of, 575
large, functional variations of mucous membrane relief in, 145
occlusions of, roentgen aspects, 564
small, functional variations of mucous membrane relief in, 145
small, leiomyosarcomatosis of, 368
small, roentgen findings in, in steatorrhea, 758
Intracranial extension from malignant tumors of nasopharynx, 377
Intrathoracic shadows, roentgenographic differentiation of, in frontal position (abs), 677
Intussusception of colon caused by tumor, roentgen appearance, with and without barium examination, 549
Iodism, acute, during intravenous pyelography (abs), 140
Iodochlorol as opaque substance used in uterosalpingography, 527
Ionization chamber, free-air, measurement of supervoltage roentgen rays with, 256
in air and in gas mixtures approximating composition of tissues, 992
measurements, secondary radiation from tubular gamma-ray applicators of various materials studied by, 804
Irradiation effects, inheritance structure of cell and its relation to, 91
rotation (abs), 680

Jaches, Leopold, 1874–1939, obituary (E), 455
portrait, 456
Joints, multiple, of upper and lower extremities, inheritable and congenital multiple synostoses in (abs), 1059

Kentucky Radiological Society, 1051
Kidneys, contusions of, roentgen diagnosis (abs), 138
diffuse calcific deposit outlining lobules of, associated with parathyroid adenoma, 601
Klippel-Feil syndrome, case of (abs), 140
Knee joint space, roentgen appearance of (abs), 477
Kymography, limitations of, in diagnosis of mediastinal tumors, 597

Labor, mechanism of, 719
Laue diagram, twenty-fifth anniversary of (abs), 492
Leg, calcification in arteries of, 784
Leiomyosarcomatosis of small intestine, 368
Leukemia, chronic myeloid, serial blood and bone marrow findings in mother treated by roentgen rays, and eight-month fetus (abs), 304
Leukocytes, effect of radium and benzol on (abs), 490
Lipiodol as opaque substance used in uterosalpingography, 527
Liposarcoma, report of case of, 851
Lithiasis, pancreatic, 42
Liver, histological studies of, in dogs, following intravenous injection of thorium dioxide, 950
percentage of gamma-ray activity remaining in, five years after injection of thorotrast (abs), 682
Localization, simple method of, and removal of multiple foreign bodies, 469
Lung, collapsed, in roentgenogram, interrelationship with bronchiectasis and triangular basal shadow, 173
cystic disease of (abs), 678
embolism of, roentgen manifestations, 901
respiratory motion of, during artificial pneumoperitoneum treatment, 37
roentgen aspect of edema of, 183
tissue, detection of crystalline silica in, by roentgen-ray diffraction analysis (abs), 682
tuberculous, annular shadows in, treated with pneumothorax, 581
Lungs, application of pulmonary physiopathology to collapse therapy (abs), 136
arteriography of (abs), 676
hemosiderosis of, 592

nodular bone formation in chronic passive congestion of (abs), 678
prognosis of roentgen treatment of actinomycosis of (abs), 486
roentgen diagnosis of lesions of pulmonary artery (abs), 870
roentgen picture of, in whooping cough (abs), 677
study of abnormal diaphragmatic and mediastinal movements of value in disease of, 926
study of changes in, following irradiation in carcinoma of breast, 605
syphilitic gumma of (abs), 675
LYMPH NODES, enlarged inflammatory, in infants and children, roentgen treatment (abs), 303
involvement of, from malignant tumors of nasopharynx, 377
metastatic cervical, treatment of, 819
LYMPHADENECTOMY, iliac, results of, with irradiation in borderline cancer of cervix, 242
LYMPHATIC VESSELS, relation of, to spread of cancer (E), 649
LYMPHOGRANULOMATOSIS: See Hodgkin's disease
LYMPHOSARCOMA, primary, of duodenum, 545

Macacus rhesus, experimental investigations on, of effect of radiation applied directly to brain and spinal cord (abs), 680
MALFORMATION in chondrodysplasia, ulnar-volar bayonet hand as typical (abs), 477
MAPHARSEN, new arsenical used in treatment of congenital neurosyphilis, 779
MARBLE BONES: See Osteopetrosis
MASTOIDS, adaptable headrest for roentgenography of, 131
MEASUREMENT, biological, of radiations, 441
of dosage of radium packs (abs), 681
of roentgenographic shadows, densitometer for, 642
of roentgen-ray production in range of 0.8 to 2.0 million volts, 633
of supervoltage roentgen rays with free-air ionization chamber, 256
MEASUREMENTS, depth dose, with 1,000 kv. roentgen tube, 1003
half-value layer, with 1,000 kv. roentgen tube, 999
MEDIASTINAL glandular tuberculosis in adult resembling Hodgkin's disease, 742
MEDIASTINUM, limitations of kymography in diagnosis of tumors of, 597
shift of, and paradoxical movement of diaphragm, 926
MEDICINE, who shall practice? 860
MELANOMA, malignant, striking regression of generalized metastases from, following high voltage roentgen irradiation of pituitary gland, 415
METALIX TUBE, recent developments, 444
METASTASIS, generalized, from malignant tumors of nasopharynx, 377
generalized, of malignant melanoma, striking regression of, following high voltage irradiation of pituitary gland, 415
to bone from carcinoma of gastrointestinal tract (abs), 1062
to cervical lymph nodes, treatment of, 819
to lungs, differentiation between, and radiation pneumonitis, 605
METATARSAL, first, spine of (abs), 477
METROPATHIES, preclimacteric, is extensive rejection of operative treatment of, justified by practical results? (abs), 484
MICE, female, hereditary changes in descendants of, exposed to roentgen rays, 248
MICROCINEMATOGRAPHIC studies of effect of roentgen rays on normal and tumor cells in tissue cultures (abs), 491
"MOULAGE SIGN," practical value of, in roentgen diagnosis of idiopathic steatorrhea, 758
MUCOUS MEMBRANE, gastrointestinal, rôle of autonomous movements of, in digestion, 145
nasal, and subarachnoid space (abs), 671
simple compression method for study of, 667
MYELOCELE of unborn fetus, roentgen detection of (abs), 302
MYOMA, external, of small intestine, 368
internal, of small intestine, 368
is extensive rejection of operative treatment of, justified by practical results? (abs), 484

NASOPHARYNX, complications produced by malignant tumors of, 377
inflammatory states, indications, technique and results in radiotherapy of (abs), 303
NAVICULAR, adult tarsal, osteochondritis of (abs), 1062
NECK, effect of irradiation of, on repair of bone lesions from parathyroidism, 970
treatment of metastatic lymph nodes of, 819
NERVE, eighth, significance of asymmetry of pori acustici as aid in diagnosis of, 713
NEUROBLASTOMA, sympathetic, roentgen aspect of (abs), 299
NEUROSYPHILIS, congenital, 779

OBSTETRICS, use of roentgen ray in, 305, 505, 719
OSSIFICATION, observations on process of, in formation of persistent enlarged parietal foramina, 343
OSTEITIS FIBROSA, generalized, due to retro-esophageal parathyroid tumor (abs), 143
OSTEOARTHROSIS cretinosa, roentgen diagnosis (abs), 141
OSTEOCHONDRITIS ischiopubica in childhood (abs), 1062
of adult tarsal navicular (abs), 1062
OSTEODYSTROPHIA fibrosa (abs), 1063
OSTEOMA of skull, 587

Osteomalacia in endemic sprue (abs), 476
Osteomyelitis, paratyphoid fever complicated by multiple foci of (abs), 1064
Osteopetrosis (abs), 1063
Osteophytes, rôle of vertebral ligament in production of (abs), 301
Ovaries, primary inoperable cancer of, results of roentgen therapy in 51 cases of, 425
Oxygen, 95 per cent, clinical experience with, for absorption of air from body tissues (abs), 673

Paget's disease, regular trabecular dissociation in (abs), 475
Pain low in back due to lesions of intervertebral discs (abs), 299
Pancreas, gastrocolic fistula from carcinoma of, 373
lithiasis of, 42
radiopaque concretions in tail of, 931
Parallax method, simplified, of roentgen pelvimetry, 541
Parathyroid gland, diffuse calcific deposit outlining kidney lobules associated with adenoma of, 601
tumor of, retro-esophageal, generalized osteitis fibrosa due to (abs), 143
Parathyroidism, effect of irradiation of neck on repair of bone lesions, 970
Paratyphoid fever complicated by multiple foci of osteomyelitis (abs), 1064
Parietal foramina, persistent enlarged, process of ossification in formation of, 343
Pelvimetry, roentgen, 305
roentgen, simplified parallax method, 541
Pelvioroentgenography, technique of, 305
Pelvis, cretin, roentgen diagnosis (abs), 141
female, anatomical variations in, and classification according to morphology, 505
unusual developmental anomaly of (abs), 1061
Pentastomum taenoides cause of calcification in spleen, 931
Peptic ulcer, roentgenologic and gastroscopic studies in, 354
Pericardial diverticulum, roentgen diagnosis (abs), 678
exudate, encapsulated, roentgen diagnosis (abs), 678
Petrositis, roentgenologic and pathologic correlation, 317
Petrous bone, pneumatization of, 317
Phillips, Clyde Columbus, 1891–1939, obituary (E), 652
portrait, 652
Phleboliths, splenic, 931
Physiological effects of radiation, 685, 954
Physiopathology, pulmonary, application of, to collapse therapy (abs), 136
Pituitary gland, striking regression of generalized metastases of malignant melanoma following high voltage roentgen irradiation of, 415
Plagiocephaly, 347
Planigraphy, insufficiency of ordinary roentgenography in phthisiology and correction by (abs), 677
Platybrachyspondyly (abs), 479
Pleura, diseases of, 915
Pneumoconiosis, heart in (abs), 871
Pneumonias, acute, treatment with roentgen rays, 404
Pneumonitis, radiation, study of, 605
Pneumoperitoneum, artificial, respiratory motion of lung during treatment by, 37
Pneumothorax, annular shadows in tuberculous lung treated with, 581
in bronchial asthma, and subcutaneous emphysema (abs), 674
Pori acustici, significance of asymmetry of, as aid in diagnosis of eighth nerve tumors, 713
Pregnancy, late extrauterine, diagnosed by soft tissue roentgenography, 537
quintuple, roentgen diagnosis and anatomic studies (abs), 138
Prolan, effects of, on testes of immature rats, 448
Protection measurements in radium therapy, 432
scheme of, which has proved satisfactory in large radium therapy center, 98
Pseudospondylitis, infantile (abs), 301
Psoriasis, relation of, to arthropathy (abs), 476
Pulmonary circulation, visualization of, in man, 1
Pyelography in study of effect of gynecologic lesions of upper urinary tract (abs), 139
intravenous, acute iodism during (abs), 140

Quintuple pregnancy, roentgen diagnosis and anatomic studies (abs), 138

Rabbit, testicle of, histological studies to determine effect of protraction in Coutard's irradiation (abs), 491
Radiation, direct and indirect action of, on malignant cells (abs), 681
effect of, applied directly to spinal cord, investigations on *Macacus rhesus* (abs), 680
physiological effects of, 685, 954
pneumonitis, study of, 605
therapy alone in carcinoma of corpus uteri, 798
therapy, correlation of physical and clinical data (abs), 681
therapy, should we continue use of term "*super*-voltage" in? (E), 284
Radiations, biological measurement of, 441
Radioactive substances, treatment of injuries produced by, 80
Radioactivity determinations five years after injection of thorotrast (abs), 682
Radiological Conference in Rocky Mountains, 1052
Radiology, economic status of, under socialized medicine in England, 657

economic status of, under socialized medicine in Germany, 460
RADIOPAQUE SUBSTANCES used in uterosalpingography, comparative value, 527
RADIUM, effect of, on blood and blood-forming organs (abs), 490
emanation used for treatment of injuries caused by roentgen rays and radioactive substances, 80
packs, measuring of dosage of (abs), 681
therapy center, scheme of protection in, which has proved satisfactory, 98
therapy, contributions to, 432
therapy, secondary filters in, 804
tube, standardized, 110
RADON pack arrangement, 472
RATS, immature, effects of roentgen radiation and prolan on testes of 448
RESPIRATORY motion of lung during artificial pneumoperitoneum treatment, 37
RETICULO-ENDOTHELIAL SYSTEM, rôle of, in cancer, 834
RIB, cervical, in early life (abs), 478
RICKETS, renal (abs), 298
ROENTGEN diagnosis of idiopathic steatorrhea and allied conditions, 758
irradiation, biological action of continuous and rhythmically interrupted, on eggs of *Drosophila melanogaster* (abs), 490
irradiation, experimental sarcoma after (abs), 684
irradiation, protracted, histological studies of rabbits' testicle to determine effect of (abs), 491
photography of large groups of individuals (abs), 682
photography, process and apparatus for, 662
photography, suggested modifications of technique for, 867
radiation, effects of, on testes of immature rats, 448
-ray diffraction analysis, detection of crystalline silica in lung tissue by (abs), 682
-ray generating apparatus, insulation problem in, 114
-ray production, measurements of, in range of 0.8 to 2.0 million volts, 633
-ray records, filing and cross-indexing, simple and efficient method, 1007
-ray therapy "double beam," 637
-ray tube, 1,000 kv., depth dose measurements with, 1003
-ray tube, 1,000 kv., half-value layer measurements with, 999
-ray tube, Metalix, recent developments, 444
-ray tubes, rotating, progress in design of, 276
ray, use of, in obstetrics, 305, 505, 719
rays, effect of, on toxicity of blood, 709
rays, hereditary changes in descendants of female mice exposed to, 248
rays in diagnosis and treatment of tumors of bladder, 962
rays, late injuries from (abs), 482
rays, microcinematographic studies of effect of, on normal and tumor cells in tissue cultures (abs), 491
rays, statistical study of effect of, on wound healing, 625
rays, supervoltage, measurement of, with free-air ionization chamber, 256
rays, transplantation of tissue cultures of mouse sarcoma 180 after exposure to (abs), 681
rays, treatment of injuries produced by, 80
sickness, Congo red therapy in, 834
therapy, twenty years' work in (abs), 481
ROENTGENOGRAM, elective lateral, of thoracic vertebrae (abs), 683
ROENTGENOGRAPHIC differentiation of intrathoracic shadows in frontal position (abs), 677
machines, method of calibrating, 1053
shadows, densitometer for measurement of, 642
ROENTGENOGRAPHY, adaptable headrest for sinus, mastoid and skull, 131
new technique of, for small bowel (abs), 683
ordinary, insufficiency of, in phthisiology and correction by tomography (abs), 677
soft tissue, late extrauterine pregnancy diagnosed by, 537
ROENTGENOLOGY and Harvey Cushing (E), 1020
ROENTGENOSCOPY, infiltration of stellate ganglion under control of (abs), 672
systematic, in investigation of pulmonary tuberculosis in collectives (abs), 675
ROTATING anode tubes, progress in design of, 276

SARCOMA, experimental, after roentgen irradiation (abs), 684
Jensen rat, effect of high fever temperatures on, 685
No. 180, mouse, effect of high fever temperatures on, 685
No. 180, mouse, transplantation of tissue cultures of, after exposure to roentgen rays (abs), 681
primary, of bronchus, 909
SACROILIAC JOINT, congenital dislocation of, or unilateral congenital elevation of ilium (abs), 1061
SACRUM, roentgen diagnosis of tumors involving (abs), 1061
SCAPHOCEPHALY, 347
SCHMITZ, HENRY, 1871–1939, obituary (E), 1029
portrait, 1029
"SCIATICA" due to lesions of intervertebral discs (abs), 299
SILICA, crystalline, detection of, in lung tissue by roentgen-ray diffraction analysis (abs), 682
SINUSES, adaptable headrest for roentgenography of, 131

Sinusitis, coexistence of, and bronchiectasis (abs), 674
Skeleton, endocrinological affections of (abs), 143
metastasis of, in teratoma of testicle, 47
Skin, atypical reactions of, after roentgen irradiation (abs), 483
cancer, low voltage roentgen therapy in, 437
erythema tests, secondary radiation from tubular gamma-ray applicators of various materials studied by, 804
fields, method of demarcating and making permanent record of, in using grenz rays (abs), 485
three-treatment series in roentgen therapy of diseases of (abs), 484
treatment of injuries to, caused by roentgen rays and radioactive substances, 80
Skiodan-acacia as opaque medium used in uterosalpingography, 527
Skull, adaptable headrest for roentgenography of, 131
changes in content of, 347
developmental anomalies of, 347
malformations of, 347
osteoma of, 587
vascular tumors and anomalies of, 881
Socialized medicine, economic status of radiology under, in England, 657
economic status of radiology under, in Germany, 460
Spinal cord, effect of radiation applied directly to, experimental investigations on *Macacus rhesus* (abs), 680
Spine of first metatarsal (abs), 477
Spine, disease of articulating facets of (abs), 481
neoplasm, differential diagnosis of primary and secondary (abs), 480
Spleen, calcifications in region of, 931
histological studies of, in dogs, following intravenous injection of thorium dioxide, 950
Sprue, endemic, osteomalacia in (abs), 476
Steatorrhea, idiopathic, roentgen diagnosis of, 758
Stenosis, calcific aortic (abs), 679
Stereoscope, precision, use of, in pelvioroentgenography, 305
Stomach, bleeding tumors of, differential diagnosis (abs), 137
cancer, analysis of end-results following experimental radiation therapy of, 391
cancer of distal half of, preoperative irradiation of, 391
cardia, cancer of, roentgen diagnosis, 873
cardia, radiation therapy of tumors of, 391
erosive slow-growing cancer of (abs), 1058
external contour of (abs), 136
influence of filling, on colon motility and defecation in dog (abs), 489.
mucosa of, simple compression method for study of, 667
Striae in bones of set of monozygotic triplets (abs), 475
Subarachnoid space and nasal mucosa (abs), 671
effect of injections of colloidal thorium dioxide on (abs), 671
Subdural hematoma (E), 122
Sulfanilamide used in complications of carcinoma of the cervix during radium therapy, 69
"*Super*voltage," should use of the term be continued in radiation therapy? (E), 284
Synostoses, inheritable and congenital multiple, in multiple joints of upper and lower extremities (abs), 1059
Syphilitic gamma of lung (abs), 675
Syphilis, congenital, case of, with syphilitic meningitis, 779
of gastrointestinal tract (abs), 1058

Technique for roentgen photography, suggested modifications of, 867
for treatment of metastatic cervical lymph nodes, 819
Teleroentgenogram, study of size and shape of heart in hyperthyroidism by (abs), 872
study of transverse diameter of heart silhouette with prediction table based on (abs), 871
Temperatures, high fever, study of *in vitro* effect of, upon certain experimental animal tumors, 685
Teratoma of testicle, skeletal metastasis in, 47
Testicle, rabbit, histological studies of, to determine effect of protraction in Coutard's irradiation (abs), 491
skeletal metastasis in teratoma of, 47
Testis of immature rats, effects of roentgen radiation and prolan upon, 448
tumors of, radiotherapy (abs), 487
Tetanus, vertebral changes following (abs), 479
Thorium dioxide, colloidal, effect of injections of, on ventricles and subarachnoid spaces (abs), 671
histological studies of liver, spleen and bone marrow following intravenous injection of, 950
Thorotrast, post-mortem findings and radioactivity determinations five years after injection of (abs), 682
Tissue cultures, microcinematographic studies of effect of roentgen rays on normal and tumor cells in (abs), 491
of mouse sarcoma 180 after exposure to roentgen rays, transplantation of (abs), 681
Tissues, body, clinical experience with 95 per cent oxygen for absorption of air from (abs), 673
ionization in air and in gas mixtures approximating composition of, 992
soft, late extrauterine pregnancy diagnosed by roentgenography of, 537
Tomography: See Planigraphy

TONSIL, inflammatory states, indications, technique and results in radiotherapy of (abs), 303
TRABECULAR dissociation, regular, in Paget's disease (abs), 475
TRANSPOSITION, complete, of great vessels (abs), 1059
TRIPLETS, monozygotic, striae in bones in set of (abs), 475
TUBERCULOSIS, insufficiency of ordinary roentgenography in, and correction by tomography (abs), 677
mediastinal glandular, in adult resembling Hodgkin's disease, 742
multiple cyst-like osseous (abs), 144
of spleen, calcifications in, 931
pulmonary, association of hyperthyroidism with (abs), 676
pulmonary, systematic roentgenoscopy in investigation of, in collectives (abs), 675
TUMOR, polypoid, of esophagus (abs), 673
retro-esophageal parathyroid, generalized osteitis fibrosa due to (abs), 143
TUMORS, benign, of bone, immediate and end-results of radiation therapy in (abs), 487
bleeding gastric, differential diagnosis of (abs), 137
eighth nerve, significance of asymmetry of pori acustici as aid in diagnosis of, 713
experimental animal, *in vitro* effect of high fever temperatures on, 685
intussuscepted, of colon, roentgen appearance, with and without barium examination, 549
involving sacrum, roentgen diagnosis (abs), 1061
irradiated *in vivo*, cultures of (abs), 681
malignant, of nasopharynx, complications produced by, 377
mediastinal, limitations of kymography in diagnosis of, 597
of bladder, roentgen rays in diagnosis and treatment of, 962
of brain stem, technique for demonstration of, 18
of spine, differential diagnosis of primary and secondary (abs), 480
of testis, radiotherapy for (abs), 487
vascular, of skull and brain, 881
TURRICEPHALY, 347
TYMPANIC CAVITY, angioma of, roentgen diagnosis and treatment, 25

UMBRATHOR as opaque substance used in uterosalpingography, 527
URINARY TRACT, upper, effect of certain gynecologic lesions on (abs), 139
UROLOGICAL surveys, significance of, in cervical carcinoma, 63
UTEROSALPINGOGRAPHY, comparative value of radiopaque substances used in, 527
UTERUS, adenocarcinoma of, 789
carcinoma, radiation therapy alone in, 798
cervix, borderline cancer, results of lymphadenectomy with irradiation, 242
cervix, cancer, gross morphology of, in relation to its curability, 51
cervix, cancer, radiotherapy of (abs), 487
cervix, cancer, treatment by radiation therapy, 55
cervix, carcinoma, aids to irradiation in management of, 73
cervix, carcinoma, management of major complications during radium therapy of, 69
cervix, carcinoma, significance of urological surveys in, 63
effect of benzedrine sulphate on (abs), 490

VENTRICLE, fourth, ventriculography of, 18
VENTRICLES, effect of injections of colloidal thorium dioxide on (abs), 671
VENTRICULOGRAPHY of fourth ventricle, 18
VERTEBRA PLANA, Calvé's (abs), 301
VERTEBRAE, cancer of (abs), 479
changes in, after tetanus (abs), 470
lower cervical and upper dorsal, new technique for (abs), 683
thoracic, elective lateral view (abs), 683
VERTEBRAL ligaments, rôle of, in production of osteophytes (abs), 301

WHOOPING COUGH, roentgen picture of lungs in (abs), 677
WOUND healing, statistical study of effect of roentgen rays on, 625
